Mark -

I don't know why or how I'm
getting connected to the Deeg well
situation.

Would you guys please
address this and identify who
is responsible for this stuff.

I've forwarded a copy of this
letter to Allen Merritt for
his information

Department of Water Resources

Dear Helen,

I am writing to you in regard to your findings of the Tim Weeg well.

The Warm Creek Irrigation Co. is concerned about the amount of water that Mr. Weeg pumps. Does his well have a flow meter on it? We also want to know if the perforated casing was removed to prevent cascading water from going into his well? Our streams of water are Cold Creek and Warm Creek. The Warm Creek Irrigation Co. was formed in 1890. When the irrigation season starts our water flow decreases significantly so you will probably understand why we have major concerns.

Can you please send us your findings on Tim Weeg's well and any other information you might have that affects our water?

Thank you
Fathleen Barkdull, secretary
Warm Creek Irrigation Co.
