Re: Water Right Permits- Timothy Deeg.

Dear Glen:

As we discussed on the telephone, the transfer of water rights for Timothy Deeg, which was prepared to hopefully clear up the concerns relative to objections to the SRBA recommendations was rejected by the Southern District office. The basis for the rejection was that the transfer involved two water rights which were in the permit stage and transfers involving permits are not processed or allowed.

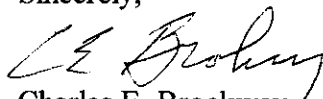

John Frietag of the Southern District informed me that Kay Walker of the State office was processing the permits based on a beneficial use exam performed in about 1966. I requested during our telephone conversation that perhaps it would be prudent to suspend processing of these permits until such time as some of the concerns, particularly on the allowed discharge, could be cleared up.

This letter is to request that processing be suspended until such time as these issues can be resolved. I understand you have conveyed this to Kay Walker and she sent me copies of the draft license for 41-07076 and a proposed application for amendment to 41-07081.

I will proceed with the evaluation as quickly as possible.

Thank you for your assistance.

Sincerely,

Charles E. Brockway
