Re: Distribution of Water to Water Rights Nos. 36-02551, 36-07694, and 36-15501

Dear Mr. May:

After reading your letter yesterday, I want to clarify my request for information conveyed by my letter to you dated October 17, 2003. In my letter, I stated that I need additional information as follows:

- (1) The amount of water available to supply the listed water rights from the surface water sources from which the right is diverted;
- (2) The configuration of diversion works used to divert water under the listed water rights;
- (3) The amounts of water being diverted at the present time as well as the amounts of water historically diverted under the listed water rights;
- (4) The configuration of water measuring and recording devices used to measure the quantity of water diverted under the listed rights; and
- (5) The potential for supplying water to the listed rights by implementing alternate reasonable means of diversion or alternate points of diversion.

Page 2 of 2

It is the responsibility of the Department of Water Resources to gather this information, and I did not necessarily intend for Rangen, Inc. to develop this information. Of course any of this information that Rangen can provide will be helpful.

What I requested of Rangen, Inc. was to: (1) contact Cindy Yenter, the watermaster for Water District No. 130 to arrange for site visits; and (2) provide all historical records of the amounts of water diverted under the listed rights. The purpose of the site visits is to develop the five items of information listed on the previous page. The reason for my request for historical records is that the Department only has records of diversions under the Rangen rights from 1995 through 2002.

If further clarification is needed, please contact me at your earliest convenience.

Sincerely,

A handwritten signature in black ink, appearing to read 'Karl J. Dreher', written over the word 'Sincerely,'.

Karl J. Dreher
Director
