

Antelope Valley Ranch LLC
"forpos"

Reduction of water.

- remove water from unneeded
- liner
- measuring devices, lockable.
- construction would proceed
- manually
- Water must control.

lease the Ranch

actual water rights in place.

Speculation - No continued Rerching

Financial Resources.

Local Public Interest

- Check Breckaway-
- Mitigation

Timing
- expect installation of ponds.

- Some application as
Gordon Player

- Wildlife Benefit.
- not compared by wildlife

willows stay

Point of Diversion

Waller

- Storage for Irrigation

- Drying up for irrigation

- type of fish
- permits from fish and game

Protestants agreed to stipulate that pond will not be any larger than 5 ac or 50 AFE in volume and that no vegetation will be used from the pond.

The department accepted that the water right could be conditioned for the pond size but that the injection from the pond would be described within the permit

KRL,
