Re: Application for Transfer

Dear Mr. Tillotson,

Thank-you for sending in your application for transfer. I am now beginning to process and I am in need of clarification. They are as follows:

1. The original right, 29-13436 pertains to 4 acres in Section 4, T10S, R38E. The new location is 1.8 acres in section 32, T9S, R38E. A warranty deed for Kody Tillotson shows that he is conveyed 1.2 acres indicating 3 acres total.
 - a. What happens to the 1 acre of water right that is left behind? Does it stay in your name or is it a new owner? Is there a warranty deed?
 - b. IDWR requires a warranty deed for your ownership of the 1.8 acres. If you have it under contract, we require a letter from your lender agreeing to the proposed changes.
2. There have been edits made in a red pen to your application. Who made the edits? Whether or not they were yours, you will need to initial them in agreement and send the Transfer Application back to my attention

I apologize for any inconvenience this may cause you but hope that I can process your application(s) in the most efficient way. Please call if you have questions or wish to discuss. As a convenience, you may include any convenient phone numbers that I may contact you if I have questions.

Sincerely,

W. Roger Warner
Water Right Supervisor – Eastern Region
