Subject: State Water Bank Applications – LDS Church

Dear Cynthia:

On behalf of The Church of Jesus Christ of Latter Day Saints, I am pleased to submit the enclosed water bank applications associated with two Church meetinghouse sites located in Canyon County. Both sites have pending applications for transfer of irrigation groundwater rights for purposes of landscape irrigation. While the transfers are being processed, the Church proposes to rent water from the State Water Bank for irrigation purposes. I have enclosed copies of the transfer applications for each property. The water uses are described in more detail below.

- Property Number 563-1416 is located east of Middleton on Lansing Lane, and will require groundwater for irrigation of 1.7 acres of landscape. Water will be diverted from a domestic well that is authorized under water right permit 63-31659.
- Property Number 581-0272 is located north of Nampa on Northside Boulevard, and will require groundwater for irrigation of 1.8 acres of landscape. Water will be diverted from a domestic well that is authorized under water right permit 63-31660.

Please contact me with any questions. I am available to deliver a check for the rental upon approval of the applications. We would appreciate receiving copies of the approved applications

Sincerely,

Terry M. Scanlan, P.E., P.G.
