Re: Rental of Water Rights from the State Water Supply Bank

Terry Scanlan, on behalf of the Corporation of the Presiding Bishop of the Church of Jesus Christ of Latter-Day Saints, A Utah Corporation Sole, submitted two applications to rent water from the Water Supply Bank for irrigation use during the 2004 irrigation season. The rental applications were filed to accommodate temporary use while the Department processes applications for transfer filed for irrigation of the same lands.

The applicant proposes to divert water for irrigation of 1.7 acres and 1.8 acres of landscaped area in two different locations. The water will be diverted from existing domestic wells authorized under water right permits 63-31659 and 63-31660 respectively. The wells were drilled under drilling permit nos. 810358 and 812216. A \$200 fee was paid for each permit (no upgrade fees are required).

Though a slightly higher diversion rate was requested, the rate per acre is limited to 0.02 cfs per acre in accordance with department standards and rate authorized under right no. 63-2461.
