Dear Mr. Keen,

In March, 1998 I applied for a permit to drill a domestic well or wells for a public water system for Mountain Shadows Development in Garden Valley. For convenience I applied for the permit in my own name rather than in the name of Mountain Shadows Development Company, LLC. and used my home address for a point of reference. The time allocated for the beneficial use of the water right in the application was five years or Fall 2002.

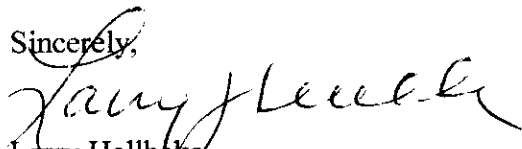

In September, 2001 I moved from my personal residence at 6036 Winstead Place, Boise, Idaho to 3837 North Holl Drive in Eagle. As the United States Post Office only forwards mail for up to one year, when your reminder for the proof of beneficial use was sent to me it was not forwarded but was returned to your office.

As this is the first public water system I have developed I did not remember nor did I make notes to follow up on the beneficial use of the project five years after the application.

I have included with this letter, copies of Idaho Power water bills for the various pumps in the system and letters from individual homeowners who have purchased lots and built homes in the project. Of the 51 lots planned at that time we have sold 49 and the remaining two are under contract. There are approximately 12 homes occupied or under construction. The system was fully developed prior to Fall 2002.

I respectfully request that Permit 65-13800 be reinstated. I am working through Mr. Steve Hannula with ERO Corporation to finalize this application for beneficial use of domestic water for Mountain Shadows Development. I apologize for any inconvenience this may have caused. Please let me know if you need any further information or documentation concerning my request.

Sincerely,

Larry Hellhake

We purchased lot #15 in Mountain Shadow in 1999 and remodeled the cabin soon after.

We have had the use of the domestic water with out any interruption. We have always had as much water as we needed with good water pressure and it also is good tasting.

To Whom It May Concern:

My wife, Ann, and I bought a lot in Mountain Shadows Subdivision in Garden Valley, Idaho in the spring of 1998. That summer we started construction of our home on lot 30 of that subdivision and live at that location to this date. We received our domestic water from the community wells and supply system provided by Mountain Shadows Development Company. We do, to this day, receive our water from that source. The water is clear, has a wonderful taste, and is always plentiful.

Regards,
