

MEMORANDUM

DATE: October 18, 2005

TO: Water Right Files 21-12967 and 21-7113

FROM: Shelley W. Keen *SWK*

RE: Place of Use

The field examiner for Permits 21-12967 and 21-7113 found a single well and irrigation system covering the lands developed under both permits. Therefore, he recommended licensing them in a common permissible place of use. Yesterday Mark at Idaho Agricultural Credit Association in Rexburg (208-356-5479) called me to discuss the permissible place of use recommendation. He said that the irrigation system covers parcels of land under separate ownership and that the owners may not want to be in a permissible place of use. Mark wanted to meet with someone to discuss the issue, so I arranged for him to meet with the field examiner, Dave Carlson, in Idaho Falls or Rexburg. Licensing of these rights should be held up until Dave files a supplemental report.

10/31/2005

This afternoon I spoke with Dave Carlson by telephone. Last week he met with Rudy Steinman and Marc from Idaho Ag. Credit to discuss this right and right 22-7267 (21-12967). Both parties agreed with the licensing recommendations and submitted amendments.
