RE: Permit No. 79-14134

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4947.

Sincerely,

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Water Right 79-10351

Dear Ms. Tomlinson:

I am writing in response to your question about whether Water Right 79-10351 could be changed from stockwater use to recreation and aesthetic use, including a pond about 50,000 cubic feet in volume. When reviewing a transfer application, IDWR cannot authorize a change that will result in an enlargement of the water right or injury to other water right holders. When looking for potential enlargement or injury, IDWR must evaluate the consumptive use of the water right. Consumptive use is the portion of the water right that is lost through evaporation or transpiration when the water is used. The consumptive use for a stockwater right is considered by IDWR to be de minimis, meaning that it is too small to notice. Because impounding water in a pond or reservoir exposes it to evaporation, ponds and reservoirs are consumptive uses. Water rights for non-consumptive uses cannot be changed to consumptive uses because the right would be enlarged and may injure other water right holders. It might be possible to change your stockwater right to provide up to 13,000 gallons per day flowing into and through your pond once it is full, but filling the pond and maintaining it full must be covered by a separate water right.

I have enclosed an application form for you. Please note that since 1992 there has been a moratorium on new consumptive uses of surface water in the Salmon and Clearwater River drainages. Applications for ponds and small reservoirs have been processed and approved despite the moratorium if the total water surface area will be less than half an acre.

If you have any questions, please call me at 208-287-4947, or email me at shelley.keen@idwr.idaho.gov.

Dear Mr. Keen:

RE: Water Rights - #79-10351

In talking with Greg Taylor in Coeur d'Alene it is his recommendation before filling out a new application and/or transfer of application to write you and get your input on the best application to file.

Enclosed are two maps showing the described property. I believe the location is approximately Township 30 N Range 2E Section 25 in the SE1/4NW1/4SW1/4. It is my understanding that there is an existing water right on this property. It is our intention to transfer the existing water right from stock water to recreation/aesthetic.

BTW, LLC recently subdivided a portion of this property and we would like to offer a fishing pond to the subdivision. The pond size would be approximately 50' x 100' and 10' deep in a kidney shape. According to Mr. Taylor the approximate volume would be 7/10 acre-feet per annum. The creek water would be piped into the pond and from the pond piped back into the creek.

On the enclosed map John's Creek runs through Kevin C. Tomlinson property and on through Buy-the-Way property to the Grangeville Golf and Country Club. Kevin Tomlinson is also a partner of Buy-the-Way, LLC. Mr. Taylor indicated that the water right was for multiple property owners. It is my belief that the water right begins at tax #T-185 (Kevin Tomlinson property) and continues to the Grangeville Golf and Country Club. I believe the multiple owners Mr. Taylor was indicating is Kevin Tomlinson and Buy-the-Way, L.L.C. members.

I look forward to hearing from you regarding which application should be filed. Please respond to Route 2 Box 662-D, Grangeville, Idaho 83530 or you can contact me at 208-983-2707 or 208-983-6539.

Sincerely,

Debbie Tomlinson, Secretary
