Re: Revised Application for Transfer - City of Mountain Home
Water Rights 61-2167, 61-2210

Dear John:

Based on our telephone conversation on October 24, 2005, I am submitting revised documents to amend or change the transfer for the City of Mountain Home to reflect that there is no change in the nature of use of the irrigation right. This is in concert with our discussions with the Director on October 12, 2005.

I have revised Part 1 of the transfer to reflect that the purpose of the transfer is to provide irrigation water for the City to meet current and future summertime demands and Part 3 of the transfer to reflect no change in the nature of use of the water rights thereby maintaining the discharge rate of 7.32 cfs and annual volume of 1800 acre feet for both water rights.

In addition, I revised the narrative supporting the transfer application to reflect the same changes. The remainder of the application IE: the Part 2's do not need revision. Please note that Mayor Joe B. McNeal has signed the revised application for the City and it has been properly notarized.

If you would assemble the revised application and proceed with processing as soon as possible, it would be appreciated.

Sincerely,

Charles E. Brockway, P.E.
