RE: Phone conversation with Alvin Seeley

Date: October 19, 2005

.....

Mr. Seeley called this morning to say that he had put the licensing amendments in the mail yesterday. However, he had forgotten to cross through the 2 acres located on BLM ground and wanted me to do that when the amendments arrived. I asked him to please put a note in the mail requesting the removal of the BLM lands so the file would show that it was his decision and not mine. Mr. Seeley said he would get the note in the mail right away.
