13. kwalker 10/5/2005 License Review

Comment: Reviewed this permit in conjunction with SRBA claim & review. Found that we could license field in NWSE, NESW and SESW, S05 if we can get an amendment to include a PPU under this right. These lands were not included in examiners recommendation because they exceeded the 150 acres under the permit. The mainline runs north through the above field as shown on map and well water could be delivered to this 35.5 acre field. Please note that examiners tract lines are off on the aerial photo he submitted with his exam so the location of acres is different than described by examiner.

15. kwalker 10/6/2005 Place of use

Comment: Roxanne Brown contacted permit holders attorney to see if they really wanted to include lands on BLM and neighbors properties. The attorney replied stating that was not the intention of the permit holder so we removed those lands from the proposed license. See memo from Roxanne in file.

16. kwalker 10/20/2005 Combined Place of Use

Comment: The proposed place of use under this license only includes 34 acres of irrigation in the NENE, S08. Lemhi decree found 40 acres under Rt. 74-2159 in the NENE, S08. Have included the additional 6 acres in my combined use condition.
