To: File 74-7305
From: Roxanne Brown
Subject: irrigation POU for McFarland Livestock Co.

I spoke with Kent Foster today concerning his client's place of use for Permit/Claim 74-7305. It appears the pivot and hand lines may irrigate small portions of BLM land or land owned by a neighbor.

Kent stated without reservation that is not McFarland's intention to develop a water right on land that does not belong to them. This is an inadvertent use and his client would prefer that we not license or recommend land owned by others under 74-7305.
