RE: Water Right License No. 35-8659

Dear Mr. Richards:

The Department of Water Resources (IDWR) has received your letter of September 16, 2005 regarding the water right license referenced above. In your letter, you noted an error in the location of the water right and asked how the error might be corrected.

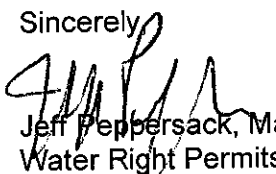

Staff from our Eastern Region office in Idaho Falls have confirmed the location of the place of use and point of diversion as developed under the permit during the late 1980's and found them to be in the SESE of Section 15, T4N, R37E. It appears that the error on your application, indicating the locations in the SWSE of Section 15, were carried over to the field exam and the license for the water right. IDWR can initiate action to correct the licensed locations if you amend the permit to reflect the developed locations.

Please note that Kevin Rhodehouse recently filed a Notice of Change in Water Right Ownership based on the recorded locations for the water right. Mr. Rhodehouse will receive a copy of this letter, as well as a copy of any order issued to correct the license.

I have enclosed an amendment form for you to sign and return if you wish to amend the permit so IDWR can correct the license. Please review the amendment form carefully. If you concur with the information presented, sign the form and return it with the \$50.00 filing fee as soon as possible.

If I do not receive the completed amendment form and fee within thirty days, I will assume that you no longer have an interest in this change. If you have any questions about this information, please contact me at (208) 287-4948 in Boise.

Sincerely,

Jeff Peppersack, Manager
Water Right Permits Section
