Re: Swanson, Bill – Lease of Portion of Water Rights

Dear Cynthia:

Please find the enclosed application to Lease a Water Right to the Water Supply Bank submitted on behalf of Bill Swanson. Mr. Swanson would like to submit a portion of water rights 37-7349B and 37-2683B as described in the attached application. These two rights are included in a PPU that describes a combined irrigatable limit of 62.2 ac. Twenty five (25) acres of the combined limit of this PPU from water right 37-2683B and 37-7349 would be submitted to the water bank for lease while the remaining 37.2 ac will still be irrigated under this right (see attached map). This PPU has been irrigating at least 62.2 acres in 2004 and in the past. The attached aerial photos from 2004 and 2001-1999 show that these lands have been irrigated and are not subject to forfeiture. If you have any questions regarding this application, please feel free to give me a call

Sincerely,

Daren T. Nelson, Hydrologist
