Re: Water bank application - Leavell

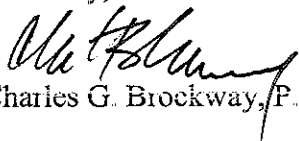

Dear Cynthia:

Please process the enclosed Application to Rent Water from the Water Supply Bank in the name of Alonzo Leavell. The requested water right is 37-7343. This water is needed for irrigation of 10 acres in the Gooding area. A map is enclosed showing the location of the points of diversion and irrigated acres. A second map shows the relative locations of the water being rented and new place of use. An expedited processing of this application is requested since water is required immediately.

Could you also please contact the lessee and determine whether they would accept the standard water bank rental rate rather than the \$20 per acre-foot as listed on the submittal?

Thank you, and please do not hesitate to call if you have any questions.

Cordially,

Charles G. Brockway, P.E.
