Well-coordinates.xls

s

Jim,

Here is the Whitesides dairy well coordinates with point conversion to your coordinate system from the lat/long. The shapefile is probably more accurate however if it came across ok.

Thanks,

Jason

Jason - Allen unzipped the smaller file, so hopefully it will work. The larger file was in lat & lon, which we cannot use. We need stuff in northing and easting - standard gps coordinates. Thanks.

Jim,

Here is a spreadsheet with lat/long of the Whitesides Dairy wells and also a zipped shapefile (hopefully in your current base coordinate system).

Let me know if you have any trouble opening or using the information.

Thanks,
