Subject: Corrected Applications for Transfer - Mountain View Land, LP

Dear Jim:

Please find enclosed two corrected transfers prepared on behalf of Mountain View Land Limited Partnership. One transfer proposes to change the nature of use of 65 acres of irrigation water rights to dairy use at the existing dairy facility. The other transfer is designed to provide flexible water management of the remaining 199 acres of irrigation water rights.

The revised ESPA mitigation analysis is included and continues to show no significant increased Snake River reach impacts associated with the change in point of diversion for the new water proposed to be diverted at the dairy.

I believe the LCO worksheets, FSA data and sale agreement already in your possession are still applicable. The total amount of water transferred is reduced and any refund of the previous fee submittal would be greatly appreciated.

I apologize for the changes to the transfers submitted in May, 2005 and hope that these revisions will not be burdensome. If you have any questions or need additional information please don't hesitate to ask.

Sincerely,

Jason C. Helms, EIT

Enclosures Application for Transfer to dairy (36-16310, 65 acres to dairy)
Companion Transfer (36-16310 PPU for remaining rights)
Revised ESPA Transfer Spreadsheet Results
