1. dcarlson 8/5/2004 Field Report Narrative

Comment: onstream storage dam on an unnamed stream. the use should be storage, not a diversion rate.

the application indicates a pond of 4 af in size, that is the approx size. 1 acre X 4 ft deep.

source should be unnamed stream.

2. kwalker 10/7/2005 License Review

Comment: Field examiner recommends clarification of source and use. Recommend licensing as proposed.

An amendment is not required to clarify the name of the source. The source is the same as that indicated on the application, but we want to call it an unnamed stream instead of a spring. Similarly, an amendment is not required to show the use as aesthetic + wildlife storage. The application stated that a 4 acre-foot reservoir would be constructed, and that is exactly what the permit holder did.
