

MEMORANDUM

Date: October 03, 2005
To: Transfer 71890
From: kwilson
Re: Evaluation

This transfer proposes to add a point of diversion to the existing system. Total diversion rate is down because one of the existing wells cannot be deepened.

Authority to File:

Land is owned by applicants as evidenced by the enclosed warranty and quit claim deeds.

Water Right Validity:

Water rights involved in this transfer were decreed 06/27/2002 and 07/10/2002 in the Snake River Basin Adjudication.

Injury to Other Water Rights:

Applicant proposes to add a point of diversion to an existing system and drill a new well to bring total diversion rate up to the decreed amount. The new well is located in the same Row and Column in the Eastern Snake Plain Aquifer Ground Water Spreadsheet.

Enlargement of Use:

This transfer proposes no increase in acres or rate of diversion. There is no evidence of enlargement.

Local Public Interest:

No issues identified.

Beneficial Use Conservation of Water Resources:

No issues identified.

Review of this application for transfer finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing.
