RE: Water Right Permit No. 67-07508

Dear Permit Holder(s):

During further review of your permit, and other water rights diverted from the Little Weiser River through the Mickey Wilkerson Ditch, it was discovered that the point of diversion was developed differently than described on your permit. Your permit and several other water rights list the point of diversion in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 1, T14N, R2W. The field examiner reported the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 1, T14N, R2W. Upon examination of GIS information (layout enclosed), the point of diversion was found to lie in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 1, T14N, R2W. The point of diversion is very close to the corner where these tracts intersect, thus the confusion, but we are now making an effort to make our records consistent with one another, and with the real-world location.

Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

The enclosed Application for Amendment form depicts the point of diversion and other elements of the water right as they will appear on the license when it is issued. Please review the amendment form and enclosed map carefully. If you concur with the information presented, please sign the form and return it within 14 days. Since you have already submitted an amendment to adjust your place of use and paid the amendment fee, no further fee is required. The enclosed amendment will replace the application for amendment received September 7, 2005.

If you have any questions, please call me at (208) 287-4949 or send e-mail to erin.retelle@idwr.idaho.gov.

Sincerely,

Erin Retelle
Water Resource Agent

Preliminary check by W Fee = \$50.00 ^{#FOR DEPARTMENT USE ONLY} Received by M # C079023 Date 9-7-05

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, Karl J. Dreher, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 67-07508 with the following:

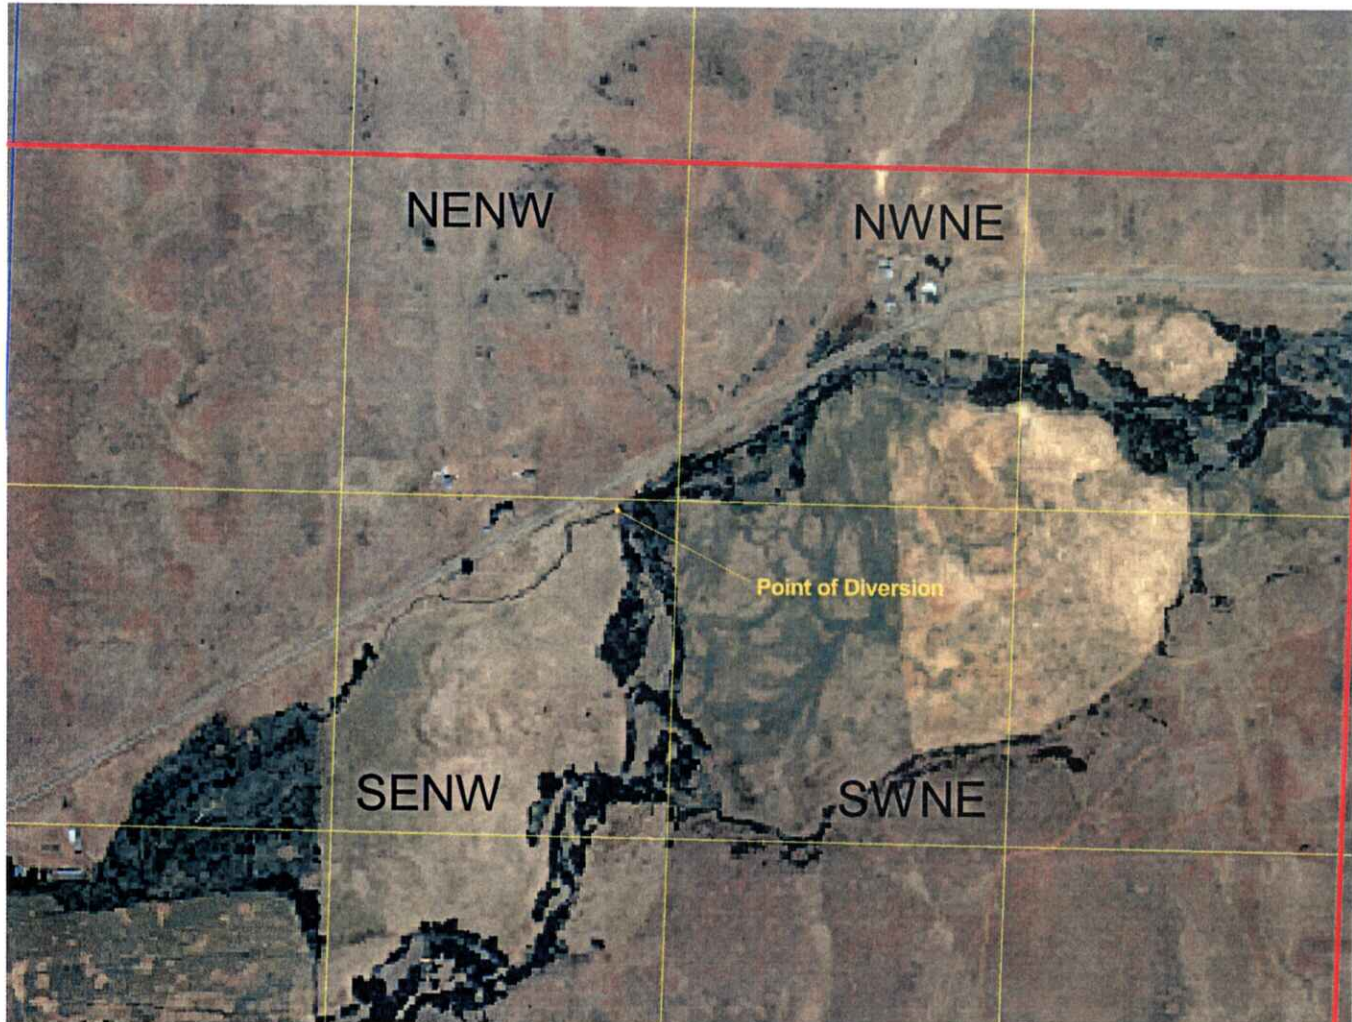

CONDITIONS OF APPROVAL

1. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 67-A.
2. No water shall be diverted under this right after June 15 of each year without prior approval of the watermaster.
3. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
5. Right 67-7494 is also diverted through the point of diversion described above.

Witness my hand this _____ day of _____, 2005.
