RE: Archuleta and Greenwell
Applications for Transfer

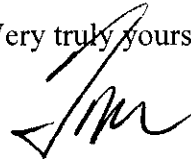

Dear Ms. Gibson:

I represent Gary and Barbara Greenwell and Ron and Pam Archuleta. I am writing to request a continuance of the hearing in this matter presently scheduled for March 29, 2005 because the issues may be mooted by a Judgment to be entered on the enclosed Memorandum Decision and Order. We expect that Judge Wilper will enter the Judgment within the next few days. Once the Judgment is filed, the Bohlman's will have 42 days to file and serve a notice of appeal. If the Bohlman's do not appeal the Judgment, it will become final. We expect that once the Judgment is final, the Bohlman's will have no claim of right to the well lot, well or water system. Since the reason for my clients' application was because of the disputes with the Bohlman's, they will likely withdraw their application because they will no longer have to deal with the Bohlman's with regard to the well lot, well and water system. Rather, the Bohlman's will likely want to change the point of diversion with regard to whatever water rights they have.

The costs and expenses associated with a hearing on this matter may be saved, if the Bohlman's do not appeal Judge Wilper's decision. We, therefore, request that the hearing be continued for at least 90 days. I am providing a copy of this letter to James Gillespie, counsel for the Bohlman's.

We look forward to hearing from you regarding this matter.

Very truly yours,

THOMAS G. WALKER

Enclosure
