Re: Water Right Application for Transfer No. 71309

To Whom It May Concern:

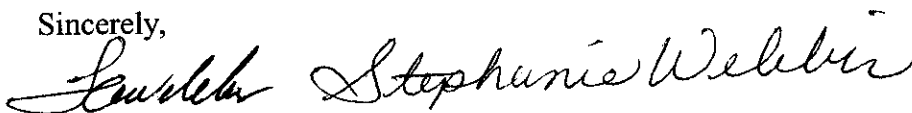

We are in receipt of the request of Gary and Barb Greenwell and Ron and Pam Archuleta regarding drilling a new well to irrigate their pastures.

We have no objection to their request to drill a new well to be shared by the two parties. However, we have concerns about the proposed site of the new well for two reasons:

- 1.) The close proximity to our current domestic well causing the potential drying up our water table. See attached map.
- 2.) The audible noise a pump motor generates, since our home (specifically our bedrooms) would be just 90 ft. away.

If these concerns are addressed and a mutual site can be agreed upon, we will be happy to withdraw our protest.

Sincerely,

Timothy and Stephanie Welebir

Enclosure: Check for \$25.00 protest fee
