Re: Transfer No. 71309 and Transfer No. 71539

Dear Mr. Spackman:

I was informed today that Mr. & Mrs. Gary Greenwell and Mr. & Mrs. Ron Archuleta will not be relocating their primary pump location to a new well site. They informed that they have withdrawn their protest of the relocation of our primary water site from the Ted Lewis property to our domestic well on our personal property.

Because the Greenwells and Archuletas have indicated that they will not be drilling a new well, Stephanie and I are withdrawing our protest of their proposed well site. We consider this matter closed and want to proceed with our request to transfer our point of diversion of our water rights to our domestic well. Our application and payment for this transfer were submitted some time ago and should be on file in your office.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Stephanie Welebir".
