Dear Mr. Carlson,

In my conversation with Roger this past week I felt it was important to follow up on it. Apparently the 2 letters filed of formal complaints, which you have in your file, have been ignored. A decision allowing Andrus and Redford to continue use illegally of taking water thru the King Creek Pipe (which is also being subsidized to the association referred to above) seems to have fallen on deaf ears. We do feel you have not done your job in not only protecting individuals rights but are also continuing business as usual.

Sincerely,

Mike Chambers
