

TO: TRANSFER FILE **13-2313** Lloyd Farms

05/06/2003

FROM: Keith C. Wilson

RE: Phone conversation with Mr. Keith Lloyd of Lloyd Farms.

0926 hrs Mr. Keith Lloyd called today (05/06/2003) requesting that this office proceed with the original application for transfer as soon as possible. Mr. Lloyd said he had problems with working out well agreement with the well owner in NESW (L-3) Sec 24, T09N, R39E. Mr. Lloyd wants the new P/D to be the SWSW Sec 24, T09N, R39E, as shown on the original transfer.

Mr. Lloyd asked about the possibility of drilling the new well under the drought emergency transfer procedures. I informed Mr. Lloyd that the drought emergency procedures do not authorize drilling a new well.

0940 hrs I made a phone call to Mr. Lloyd to ask about copies of ownership – No answer.

0947 hrs Made a phone call to phone on transfer application – Busy signal.

1040 hrs Contacted Mr. Lloyd by phone and asked that he supply a copy of the warranty deed for proof of ownership of the place of use. Mr. Lloyd said he could not do it this morning but would do it in the afternoon. I informed Mr. Lloyd that the sooner we receive the warranty deed the better.

1510 hrs Received warranty deed from Caribou County Assessor Office. Fax was missing attachment "A" called Caribou County Assessor Office they faxed a copy of the warranty deed and attachment "A"

1540 hrs Called Caribou County Assessor Office asked about ownership of the land within Lot 1(NENW) Sec 25, T09S, R39E. Apparently someone other than Lloyd Farms owns that land.

1635 hrs Finished ArcView map of the area to include in letter requesting one of the following (1) proof of ownership, (2) Lease agreement, (3) Easement, or (4) documentation allowing the transfer.
