RE: Transfer #70582 Water Right 13-2312

Dear Mr. Lloyd:

The above number transfer was submitted on March 21, 2003, to add a point of diversion. On March 23, 2003, Mr. Keith Lloyd came into the office and wanted to change the point of diversion to an existing well in the NESW (Lot 3) Sec 24, T09S, R39E. At that time Mr. Lloyd was informed that an agreement with the well owner was needed prior to proceeding with the transfer. On May 6, 2003, Mr. Lloyd called and requested that the original transfer be processed keeping the point of diversion in the SWSW Sec 24, T09S, R39E.

Several attempts were made to obtain the following information in order to process the transfer:

1. Proof of ownership of the property (warranty deed)
2. Lease agreement or easement or disclaimer for the NENW (Lot 1) Sec 25, T09S, R39E (Property owned by another individual)

On September 18, 2003, a letter was sent requesting this information and notifying you that the processing of the application would be held for 30 days after which the department would issue a preliminary order to reject or deny the application.

A letter from Keith Lloyd was received on October 15, 2003, requesting that the transfer be placed on hold for the time being. No explanation was included as to why the processing should be held, but this office complied. It has now been 23 months (699 days) since your last correspondence.

The Department will hold further processing of your application for 30 days from the date of this letter to allow submittal of the required information. Additional time may be granted by the Department upon receipt of a written request and sufficient justification for an extension. After that time, if adequate information is not received, the Department will issue a preliminary order to reject or deny the application.

Your prompt response on or before October 15, 2005, will be appreciated.

Thank you,

Keith C. Wilson
Senior Resource Agent

*We are no longer
interested in changing
the water right*
