

TRANSFER MEMORANDUM

From: J. Westra, Manager

Date: 7/6/05

RE: Transfer Application—Van Grouw

As stated in the application, the purpose is to correct an error that occurred in the P/D legal description in previous transfer #68504. The P/D was marked correctly on the map, but incorrectly described in the application descriptions. The error was caught by the well driller when attempting to drill the new well. This appears to be a transfer that could be processed without advertising under the legislation passed in 2004.

A well construction permit for the new P/D has been approved by the regional office. The driller may proceed with construction in the correct location—NW1/4 of SW1/4.

Drilling Permit Attached.
