

June 7, 2005

To Whom It May Concern,

I, Marvin W. Vail, bought the farm in 1973 from Snake River Irrigation, Mr. Watkins and/or Eugene Talbot. At that time there was an irrigation pump and twelve hand lines (4 in. 1/4 mi. long). *Equipment?*

We sold the farm to our sons and we applied for permit #35-8024 in 1982 and upgraded to wheel lines and a 50 horse power Booster. Due to financial problems Scott had moved from the farm and did not receive the letters from the IDWR. Hay and grain were being raised at that time.

Sincerely,

Marvin W. Vail
