RE: Application for Transfer water right 34-2318

Dear Mr. Scott:

The application for transfer that was submitted to this office did not appear to be complete. Therefore, enclosed is the application and check # 3973 in the amount of \$370.00.

The following items on the application need to be resolved:

1. Right 34-2318 is for 4.50 cfs. Transfer reduces the amount to 3.50 cfs. What happens to the remaining 1.00 cfs? (Part 1.B.1 & 2) *transferring full 4.50 cfs*
2. Right 34-12053 is an expansion of 34-2318, 34-2414, 34-2503, & 34-7027, requiring that all five water rights need to be included in the transfer. The combined flow for all five water rights is 8.67 cfs (Part 1.B.2)
3. Are any of the old points of diversion to be abandoned? If not all points of diversion will need to be listed (Part 1.B.4) *NO*
4. The filing fee for 8.67 cfs is \$570.00 - *enclosed*

A copy of the warranty deed(s) showing that you own the place of use under these water rights must also be included with the transfer. - *Enclosed*

To assist you in filing the transfer application an aerial photo (2A) and a USGS map (2B) showing the existing points of diversion and the place of use with acres have been included. Please review the aerial photo to insure that the points of diversion and the place of use are correct. You can use aerial photo (1A) and USGS map (1B) to indicate any changes and used as an attachment for the transfer map (Part 3).

Hopefully this information will assist you in completing your transfer. Feel free to contact this office for any additional information.

Sincerely,

*Keith C. Wilson*
