

Memorandum
Kent Kohring Transfer

From: J. Westra
Date 5/3/05

RE: Background information on wells:

The 3 wells listed under the current water right 51-02214 & 51-12977 are not producing the needed flow under the water rights. Mr. Kohring proposed to deepen the existing well located in T6S R4E Section 25 SW1/4SW1/4NW1/4 to increase flow. The drilling application was denied approval.

The transfer proposes adding an additional P/D well in the NW1/4-NW1/4. This is the same well that was listed as the P/D in contested application #51-12990 (filed June 2003). Application #51-12990 is being held per request of Mr. Kohring.

Area Wells. Kohring Transfer.
