RE: Searl Transfer

Dear Jim:

Thank you for meeting with me on August 31 to review Transfer 71475 for Searle's. Based on our joint evaluation of the water rights to be transferred from Sagewood, we agreed to a transfer of 1412 acre feet under water right 43-7126 and 504.7 acre feet under water right 43-4037 for a total transferable of 1916.7 acre feet.

Based on the hydrologic analysis utilizing the new ESRPA ground water model a mitigation plan including reduced pumping was performed with the new annual volume. This analysis shows a pumping schedule at the new points of diversion beginning with 100% of the allowed annual volume for 2006 through 2020 with reductions to 65% beginning after 2051. With the reduced pumping schedule, the annual volume available to the proposed 365 acres to be added to the PPU will be acceptable as well as the discharge rate per acre.

A copy of the mitigation analysis using the Enhanced Ground-Water Rights Spreadsheet is enclosed. Please note that, with the reduced pumping schedule, the impact of the transfer on Snake River reaches below Milner is below 5% as per current transfer guidelines. This is shown on the graph included with the mitigation analysis.

I understand that you will prepare a revised recommendation concurrently with the Boise office as per our agreed volume numbers and, assuming that the review of the mitigation plan finds it acceptable, that the expedited processing of the transfer will proceed post haste. As you recall, the Director indicated at our meeting in Boise that the processing would be expedited.

RECEIVED
SEP 06
Department of Water
Southern

I also understand that no additional transfer fees are required since these fees were paid in total at the time of submittal of the application.

Thank you, and please call with any questions that you may have.

Sincerely,

Charles E. Brockway, P.E., Ph.D.

Enclosure

cc: Craig Searl
