

MEMORANDUM

TO: ROGER WARNER, SHARLA COX & DAVE CARLSON

FROM: KAY WALKER ^{Kay} THROUGH SHELLEY KEENE ^{SK}

RE: Application for Permit 74-15615

Date: August 9, 2005

.....

In review of the above application for permit we noticed that it falls within the Wild and Scenic area. In discussing with Gary yesterday, we determined that this application was advertised after the memo of 6/3/2005 was sent out. That memo, entitled "*Interim Guidance for Processing Water Right Application for Sources Tributary to Wild & Scenic Rivers*", describes the processing steps to take for applications within the wild and scenic river watersheds. The application had not been added to the Wild & Scenic spreadsheet (until yesterday) and the advertising did not contain the condition required by the ~~Noz-Peace~~ Agreement. Since the advertising was done after the 6/3/2005 memo was sent out, it was determined that this application should be returned so you can re-advertise with the special paragraph regarding "enjoyment of benefits of subordination".

If you need a copy of the 6/3/2005 memo I would be happy to scan it in and e-mail to you.

Wild & Scenic - all Salmon River
A006.
