ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, Karl J. Dreher, of the Department of Water Resources hereby approve the
above Application for Amendment for Permit No. 21-07144 with the following:

CONDITIONS OF APPROVAL

1. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.
2. The storage of water under this right is contingent upon continued certification by the Department of Water Resources under the dam safety provisions of the Idaho Code, authorizing storage.
3. Some of the water use authorized by this right is claimed with an earlier priority date on Snake River Basin Adjudication Claim No. 21-4040. If Claim 21-4040 is decreed as it is claimed, this right shall be diminished by the amount necessary to avoid any redundancy of water rights.
4. Aesthetic storage place of use is also known as Golden Lake.
5. Right 21-7184 is also diverted through the points of diversion described above.
6. Rights 21-7184 and 21-7144 when combined shall not exceed a total annual maximum diversion volume of 240.0 af.

Witness my hand this 7th day of September, 2005.
