Department of Water Resources
Eastern Region

Dear Sirs:

Enclosed is a check for \$150.00 for application of two water rights. I received this application shortly after March 18, 2003. This was the postage date the application was mailed to me after my conversation with Mr. Dennis Dunn. Dennis was very helpful in guiding me through the process and making sure I had everything done correctly. DEQ and the Dept. of Health were also very helpful at that time in making sure all domestic water was appropriately planned and approved.

After receiving the application, I contacted Mr. Dunn again for assistance in filling out the form appropriately. He helped me with the correct amount of water to be appropriated etc. Unfortunately, after this I misplaced the application and forgot all about this process amidst the many other building, sewer, and other permits we were working on completing at that time.

I recently found this application amidst other unrelated documents. Please excuse my tardiness in this matter.

The two water rights are for domestic water usage from an existing well located at 166 N. 350 W. Blackfoot, ID 83221. There is a duplex on this property currently using the well for domestic purposes. The well permit number is D0011313.

The two water rights are for the domestic water for two additional duplexes located adjacent to the property at 162 N. 350 W. and 352 W. 160 N. The quantity to be appropriated should be .13 cubic feet per second for each building or .26 total.

As indicated, please excuse my tardiness in the matter.

Sincerely;

Lyle Yancey
