DOMESTIC (0.11 CFS)

Date Filed: 08/03/2005

Place Of Use: (NENW) Lot 3,
SENW, S01, T08S, R13E

This application proposes to drill a well for 6 lots in The Boulders Subdivision that is being developed about 1/2 mile north of the Snake River on the east side of Hwy. 30 (northwest of Gridley Island).

***The following two applications propose to divert waste water from the W Canal at Malad Gorge State Park for use on land that is presently irrigated from Birch Creek. The North Side Canal Co. is digging two settling ponds on the west side of the park to collect all waste water in the W Canal for water-quality improvement. The applicants propose to install a gravity pipeline from the lower pond to each individual existing irrigation system. To mitigate for each permit, Birch Creek water will not be used for irrigation as long as there is sufficient waste water. The point of diversion for both applications will be located two miles west of Tuttle.
