RECOMMENDATION OF WATERMASTER

Application No: 45-13852

Applicant's Name: Six S Ranch

Watermaster's Recommendation:

- a) ☒ I do not oppose approval of this application.
- b) ☐ I do not oppose approval of this application if it is conditioned as

follows: I would like to see a measuring device

at entry of Ponds, the main Channel weir (14'-18')
as is currently used and a measuring indicator
at the Rock Dam slip. As it is right now the only
direction of out going water is at the Highland Flume.

☐ I oppose approval of this application for the following reasons:

- d) Additional Comment: Need to replace a measuring
device on lower Res. Slip (22') for accurate reading
of water from that point to Anderson slip (to River)

Dated this 8 day of August, 2005.

Water District No: 45F
