Additional hydropower project information: N/A

Additional fish propagation project information: N/A

Appropriation Rule 40.05.c information: N/A

Mitigation Plan or acceptance form: N/A

Evidence of Pre-1987 development: N/A

6. cskinner 7/11/2005 Legal Notice Remarks

Comment: Application proposes diverting water from a new well to be drilled for domestic (office) and fire protection (filling fire trucks) use. The new well and the place of use will be located near the east edge of Hollister approximately 700 feet east of Highway 93 on the south side of the 2450 North Road.

7. ameritt 8/19/2005 recommendation

Comment: This application was processed in parallel with staff in the state office. The application is for a rural fire house. The application covers the water needs at the fire house. The application was advertised without protest. The initial draft of the permit

limited the filling of fire trucks to 2500 gallons per day. Realistically the trucks will be filled at the rate and volume of the pump installed in the well. I have modified the conditions to reflect the reality. Approval of this permit is in the public interest and is covered under the moratorium exception for special consideration of the director. I recommend approval as the amended draft dated 8/19/05 indicates.

8. kwalker 8/22/2005 Permit Review

Comment: Application falls within ESRPA and Trust Water areas. Recommend approval as prepared by region.
