Dept. Of Water Resources
c/o Keith C. Wilson
Senior Resource Agent

RECEIVED

JUN 01 2005

Department of Water Resources
Eastern Region

Dear Keith,

I'm sorry it's taken me so long to respond. I've included a copy of an older plat that I've updated and marked for current water connections. I've also included photos of the flowmeter installed in our well house. I hope this fulfills your needs.

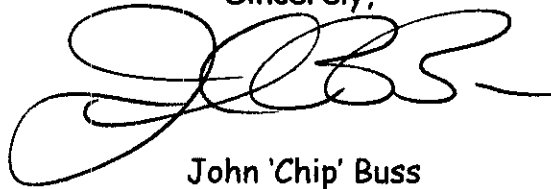

I am relatively new in this position and was unaware of the need to finalize the licensing exam. We have been working with the Idaho DEQ to upgrade and improve our water system. We have an immediate need to drill an additional well and have been moving towards this goal for the past couple years. We have invested quite a bit of money and time in exhaustive studies of the area to satisfy IDEQ so we could move ahead with well drilling.

I would appreciate any help in the timeliness of scheduling the inspection to help complete licensing of our permit # 29-8080.

I will make myself available anytime to the Dept of Water Resources to help move ahead with anything necessary to complete the permit process.

I thank you in advance for your attention and cooperation in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'JCB', with a long horizontal line extending to the right.

John 'Chip' Buss
