Re: 37-20834 Amendment / Walker Sand & Gravel
Project No. 529-01-2001

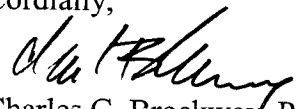

Dear Allen:

Enclosed is an Application for Amendment of Permit to add a point of diversion to permit 37-20834. This permit was recently acquired for industrial use at the Walker Sand & Gravel facility.

A new well, known as the New Crusher Well, was recently drilled approximately 12 feet to the east of the Old Crusher Well. This new well is an excellent producer and will be connected to the system and used as a primary supply. However, the owner intends to maintain the Old Crusher Well as a secondary source and will not be abandoning the well. There will be a total of four (4) points of diversion as shown on the attached map.

Also enclosed is the application fee of \$50.

Cordially,

Charles G. Brockway, P.E.
