Paris Almond
25 Moore Lane
Reno, NV 89509

Dear Ms. Almond:

Please find enclosed a water right transfer application that you recently submitted to our office along with the filing fee (check #2649 for \$100.00). The application is being returned to you because there is no map included with the application showing where the water is proposed to be diverted and used after the proposed change. In addition, the application does not clearly indicate the intent of the transfer based on my discussions with you and representatives of the BLM.

I have included a couple of copies of maps that should help you in identifying the proposed point of diversion and place of use. Based on this information (locations of point of diversion and place of use) the application may need to be further modified to reflect the intent of the transfer.

If possible, I recommend that you give me a call upon receiving this letter and application, so that I can assist you in completing the application.

Sincerely,

A handwritten signature in black ink, appearing to read 'Corey Skinner'.

Corey Skinner, PE
Water Resource Engineer
