Additional fish propagation project information: N/A

Appropriation Rule 40.05.c information: N/A

Mitigation Plan or acceptance form: N/A

Evidence of Pre-1987 development: N/A

3. jstanton 8/10/2005 Comment/Analysis

Comment: This application covers a multi-family domestic well that was drilled in 1995 to serve the homes of the applicants. It also provides lawn water for the Brodine property. The other irrigation on the applicant properties comes from a well further north under pending licenses 47-17237 to 47-17239. Mr. Eggleston owned all the land before dividing with friends and family (Mrs. Brodine is his daughter). The property is in tax lots, but is sort of a de facto subdivision. The system is fully developed, as no mention was made of additional uses during the filing process. The application appears to be approvable with standard conditions. Although the well is in the geothermal area, it is a cold-water well.

4. jstanton 8/10/2005 Legal Notice Remarks

Comment: This application proposes to provide water for 3 families sharing a common well. The property is located about 3 miles north and 1/4 mile east from the northeast corner of Buhl. The well was drilled in 1995.
