Subject: Amended Transfer #71604 (William & Susan Millenkamp)

Dear Allen:

Attached please find a re-amended Application for Transfer #71604 prepared on behalf of William & Susan Millenkamp.

The acres associated with the transfer were mis-identified according to recent conversation with Mr. Roy Prescott who owns the land at the current water right place of use. A portion of the acres identified for drying up were intended for reconfiguration from handlines to a new pivot and are not appropriate to remove from the current place of use. This change will also affect pending transfer #71709 which will be forwarded under separate cover.

The only changes to the transfer are associated with the Part 2's identifying the transfer acres and some minor clerical corrections were included with respect to the identification of the current water right points of diversion.

It is my understanding that re-advertisement will not be necessary since this change should not cause any alteration to the original advertisement of the transfer. Please call if you have any questions or need additional information.

Sincerely,

Jason C. Helms, EIT
