TO whom it may concern

At Late I'm having
an APPRAISAL on the
following properties.

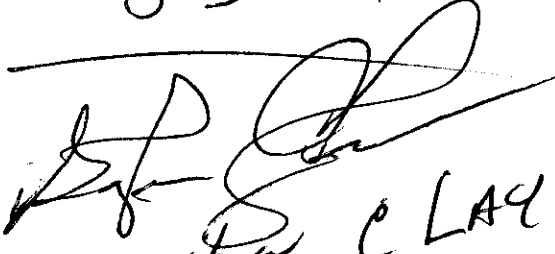

In the process, it was
found the water right
was expected - I'm not
certain how it happened.
I'm sending what I
was told by the F.F. office
what you would need to
renew the permit.

Thanks for your help.
If I needed to do more
let me know

DEPARTMENT OF
WATER RESOURCES

To Whom it may concern,

In 1973 I, Gaylen W. Clayson, took over the dairy on 600 N. 710 E. Firth, Idaho to which we will refer to as, Cedar Arch Dairy. By 1988 we were milking 800 cows, and feeding their off-spring. In 1995 we purchased a dairy at 777 N. 700 E. Firth, Idaho to which we will refer to as, North Cedar Arch Dairy. We have been milking 500 or more cows and their off-spring. This was an existing dairy for more than 50 years.

Gaylen W. Clayson

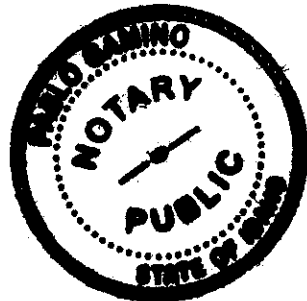

I, Dr. Charles Higham, have been working with the Claytons since the 1960's. Since the late 1980's, when they started doing business as the Cedar Arch Dairies, they have been milking some 800 cows. In 1995 when they purchased the Madsen dairy, known now as North Cedar Arch Dairy, they began milking 500 cows. ^{They} I visited the dairies on a weekly basis, to check cows until my retirement in 200

Dairyland Inc.

June 30, 2005

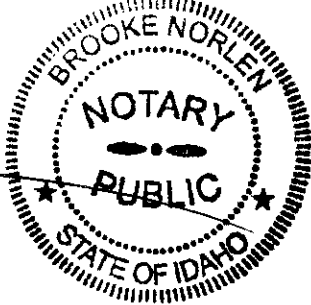

To whom it may concern:

Dairyland Inc. has been actively involved with Gaylen Claysen before and after we purchased the Blackfoot, Idaho Snake River Cheese plant in March 1994. I am aware that Gaylen has been in the dairy business for many years, mid 70's. We began leasing cows to dairymen soon after we purchased the cheese plant. Gaylen began leasing cows from us and continues to lease cows today.

Sincerely,

David Kuhn
President

RE: LAPSED PERMITS NOS. 27-07578 & 27-07579

Dear Permit Holder:

The department is in receipt of the proof of beneficial use statements you filed with the department on September 8, 2000, with the appropriate license examination fees for the referenced lapsed permits.

Since the proofs were received after the 60-day lapse period, the permits can be reinstated only if you submit **two (2) pieces of evidence** to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period, i.e. from the time the permit was issued until the proof due date (June 16, 1997 to June 1, 1998) for department consideration.

Typical evidence of the extent of beneficial use of the water include pumping records, receipts from equipment purchased and/or installed, or other information to verify use during the authorized development period.

The department will maintain the proof of beneficial use statement along with any information which has been submitted with it, for **30 days** to provide you the opportunity to submit the required information. Please be aware that this permit is **lapsed** and is of no force nor effect unless it is reinstated.

Additionally, during my review of your proofs, the permits authorized stockwater and commercial uses. However, your proofs state that the uses you have applied the water to are domestic and stockwater. I request that you clarify your water use when you supply the additional evidence necessary to reinstate the permits. I also note that the proof for permit 27-07578 claims 1,000 head of livestock under your stockwater use. However, according to your permit stockwater use is authorized for 410 dairy

Page 2

cattle and 428 range cattle, which total 838 stock under this permit. Issuance of the license can not exceed the number of authorized stockwater use as presently permitted. I suggest that you check to determine that the additional head of livestock are authorized by some other water right. If not, you need to contact our Eastern Regional Office in Idaho Falls.

If you have questions regarding this matter, please feel free to contact me at (208)327-7953 or the Eastern Regional Office at (208)525-7161.

Sincerely,

A handwritten signature in cursive script that reads "Deborah J. Gibson".
