RE: Water Right Permit No. 77-07052

Dear Permit Holders:

The Department of Water Resources is reviewing the above referenced permit prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ **Other** – Use of water found to be recreation storage rather than fish propagation storage.

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with a \$50.00 filing fee within 14 days.

Please be advised that our examiner found you could divert 1.5 cubic feet per second (cfs) for your diversion to storage use. However, because you only paid an examination fee for 1.0 cfs when you submitted your Examination Fee Information sheet, the license will be limited to 1.0 cfs. If you want this water right license to reflect the 1.5 cfs as permitted, you must submit an additional examination fee of \$25.00, plus a late payment penalty of \$25.00, within 30 days. If we don't receive the additional examination fee/late fee of \$50.00 within the 14 days allowed above, we will assume you are not interested in the additional 0.5 cfs of water and we will license the permit for 1.0 cfs.

Also enclosed you will find a copy of a Reinstatement Order that advances the priority date under this right. The Order explains the reason for this advancement.

If you have any questions, please feel free to call me at 208-287-4953.

Sincerely,

A handwritten signature in black ink that reads "Kay Walker". The signature is fluid and cursive, with a large loop at the end of the last name.

KAY WALKER
Sr. Water Resource Agent
