Kay,

This right is the one that is owned by SW Irrigation that you have been trying to get licensed. My recommendation still matches the permit, but I wanted to give you a heads up regarding the Source Tributary. We have determined that Cottonwood Creek is actually named Big Cottonwood Creek and is trib to Dry Creek, not "sinks" as it appears in the application for permit. All my other recommendation for Big Cottonwood Creek are identifying it trib to Dry Creek.

Also, the permit lists Big Cedar Canyon trib to sinks as a source, and I have determined it is trib to Big Cottonwood. Big Cedar Canyon wasn't developed so I don't believe that you will have that on the license anyway.

Its amazing the discrepancies that show up when you do QA/QC on these basin reports. Have a good weekend.

Vikie

A handwritten signature in black ink, appearing to read "V. fixed". The signature is written in a cursive, flowing style.
