MEMORANDUM

TO: File 45-07567

FROM: KAY WALKER

RE: Ditch Loss

Date: February 6, 2004

.....

Mr. Wyatt from Southwest Irrigation District (SWID) called me this morning in response to my request for information concerning the ditch they utilize for this permit. The ditch is owned and operated by Cottonwood Canal Company. The canal company share holder's irrigate from the ditch during the irrigation season and SWID only utilize the ditch when it is not being used by the canal company users. **Mr. Wyatt stated they are not interested in pursuing conveyance loss under Right 47-7567.** He said the ditch starts out real wide at the bottom and then narrows at the end of it. Told him I would pursue getting the license issued without any conveyance loss.
