CORRECTED EASEMENT DEED

Corrected Easement Deed made this 19th day of January, 2005, between STANLEY BUNN and LEATRICE BUNN, Husband and Wife, of 10620 West Bunn Drive, Coeur d'Alene, Idaho (hereinafter, collectively: "Bunn"), and LEE LINGARD and CAROLYN LINGARD, Husband and Wife (hereinafter, collectively: "Lingard");

WHEREAS; A spring located upon the Bunn's real property described as the East ½ of the West ½ of the Northwest 1/4 of the Southwest of Section 23, Township 50, Range 5, West Boise Meridian, provides domestic water for the Lingard's residence, located upon the Lingard's real property, described as the East ½ of the North East 1/4 of the Southwest 1/4 of Section 23, Township 50, Range 5, West Boise Meridian, and;

WHEREAS; A water line from said spring travels across Bunn's real property described above, and provides domestic water to the Lingard's residence upon their real property described above, and;

WHEREAS; It is necessary for Lingard to travel across Bunn's real property described above to inspect, maintain, and repair said spring and water line;

WHEREAS; There was a scrivener's error in the Easement Deed previously recorded which described the easement as having a width of fifteen (15) feet when the width of the easement is eight (8) feet;

NOW THEREFORE, for fair and adequate consideration, the receipt of which is hereby acknowledged, Bunn does hereby convey an easement unto Lingard, across Bunn's real property described above, for the purpose of inspecting, maintaining, and repairing the above described spring and water line. Said easement having a width of eight (8) feet. This easement is for the benefit of the Lingard's real property described above.

RE: Permit No. 95-9280

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed at least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-287-4947.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley W. Keen". The signature is fluid and cursive, with the first name "Shelley" being more prominent.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RESPONSE: Conditional Recommendation

DATE RECEIVED: 7/21/2005

If line and pump are placed in creek and excavation is necessary, we recommend applicants be required to install lines during low water when underwater excavation will be minimized.

Dug materials should be sidecast to only one side and the bottom contour and substrate restored. Water intakes should be screened with maximum mesh size of 0.25 inches to prevent entrainment of fish; approach velocities not to exceed 0.5 ft per second to prevent losses of juvenile fish. Preferable to place pumps on land rather than in water.

Applicant should obtain necessary encroachment permits from IDL before installing water lines and pumps in state waters.

7. kwalker 8/2/2005 Permit Review

Comment: Application does not fall within any problem areas. The source did not have a tributary attached so looked at topo and found that source probably sinks.

Recommend using sinks as tributary for this permit.

Fish & Game is not objecting to this Application.
They do have concerns about excavating and placing
pipes in streams. However, this App. is for a spring
w/ spring box and not a creek.

Recommend approval.

REFERENCE: 95-9280; LINGARD

We have reviewed the above named application to withdraw 0.4 cfs and 0.4 cfs from springs for fire protection and domestic uses from January 1 to December 31.

We have no specific objections; however water lines and pumps are an encroachment in lakes and rivers, which can be detrimental to fish and fish habitat.

If a line and pump are placed in the creek and excavation is necessary, we recommend that applicants be required to install the lines during low water when underwater excavation will be minimized. Dug materials should be sidecast to only one side and the bottom contour and substrate restored. The pump should be screened to prevent entrainment of fish; the maximum screen mesh size should be 0.25 inches. In addition, pump approach velocities should not exceed 0.5 ft/second to prevent losses of juvenile fish. It would be preferable to place pumps on land rather than in the water.

The applicant should obtain necessary encroachment permits from Idaho Department of Lands before installing water lines and pumps in state waters.

Thank you for the opportunity to comment.

RE: Application for Permit No 95-9280

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Coeur d'Alene Press on July 7 and 14, 2005. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

Re: Water Permit Application No. 95-9280

Dear Mary:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right application. A copy of the application follows for your reference.

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication.

We are sending this to you for your comments, and would appreciate receiving your comments by no later than **July 20, 2005**.

You may comment by regular mail, by FAX to 769-1454 or by e-mail to Dianne.Ball@idwr.idaho.gov.

If we do not hear from you by July 20, 2005, we will assume that no comment from you means you have no objection to, concerns about, or conditions pertaining to the issuance of this permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in cursive script that reads "Dianne".
