RE: Water Appropriation Permit 22-7304 and Water Right License 22-7305

Dear Richard:

I have received your letter regarding Permit 22-7304 and its measurement device condition. Thank you for your attention. Please submit confirmation to IDWR that you have either installed the measuring device, as required on your permit; or requested removal of this requirement from your permit and gained approval from the watermaster of Water District No. 01 within 120 days. If you find you need more time, please contact IDWR in writing with the reason for delay.

I have enclosed copies of Permit 22-7304, License 22-7305 and some of the field report documents from each, which should help clarify which uses are covered by what license. According to the information in the files, one pond is covered by 22-7304 and 2 other ponds are covered under 22-7305. I hope this information helps. Please let me know if you need copies of anything else or how I can assist you further.

If I have not received a response from you within 120 days, I will assume you are not interested in pursuing a water right license and will void Permit 22-7304 accordingly.

If you have any questions, please call me at 208-327-5452, or email me at [eretelle@idwr.state.id.us](mailto:eretelle@idwr.state.id.us).

Sincerely,

Erin Retelle  
Water Resource Agent
